

## MESPAS Mobile

Exclusively designed for MESPAS Physical Asset Management: our application MESPAS Mobile combines relevant business insights to supervise your procurement processes with online approval functionality.

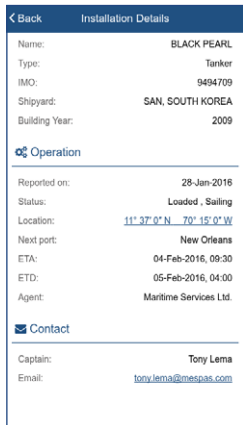

With just one glance, the application informs you about pending approval tasks. Via drill down you take the right decisions: check which parts and consumables have been requested by your vessels or industrial plants. On top of that, you get an insight not only in remaining budgets but also in the offered conditions of your suppliers. With a fingertip you approve.

### MESPAS Mobile

- Key information on your mobile device
- Efficient approval processes
- Ergonomic use
- available in official app stores
- No additional charges

Be updated about the actual status of your fleet: with the connection to Noon Reports you see all relevant vessel data in one screen. Check ship particulars, current status, and ship schedules. The geographical position of every single vessel is shown directly in the integrated world map.

MESPAS Mobile provides you with the solution to access your important data ergonomically with your mobile phone or tablet. Wherever you are. No matter what time it is.

Do you approve? Get MESPAS Mobile without any additional charges via Google Play and Apple Store.

The most innovative way of accessing and using ICT solutions in the shipping industry. Efficient, scalable, complete – at predictable, low costs.
